Not Seeing is Believing!

***Package Contains
3 Height Extenders***

GhostBlind Phantom Extender Instructions

The Phantom Extenders are designed to fit the 6 panel Phantom blind only.

This package contains 3 Phantom Extenders. Each extender has 3 steel pins on the bottom that can be inserted into the top of the flutes/holes in the Phantom Blind.

Due to the nature of fluted plastic panels, the distance between the flutes will not necessarily be exactly the same from panel to panel. Determine which flutes line up the best and then mark the center flute for later use.
